

T3

- Domain Model
- CRC cards
- Inspection

Domain Model

wiki page w/ index for diff CRC cards (bulleted list)

- create page: Domain-Model
- add "# Domain Model" to the first line
- update sidebar link: [Domain Model](Domain-Model)

↳ Brainstorming Meeting:

- individually look @ transcript before meeting
- complete noun/verb exercise on transcript
 - list noun phrases to create bulleted list of possible CRC cards

CRC Cards

separate wiki pages for each CRC card w/ links between cards

- divide list across team from DM
- each person draft individual CRC cards that list:
 - object
 - responsibilities
 - collaborators
- use verb phrases to apply card to draft responsibilities and potential collaborators

* note: some cards may not have responsibilities, collaborators (or either)

Inspection

single wiki page w/ inspection meeting inputs & notes

- create page "Domain-Model-Inspection"
- add "# Domain Model Inspection" on 1st line
- update sidebar: [Domain Model](Domain-Model-Inspection)
- group CRC cards by user stories
- before meeting: inspect CRC cards vs User Stories
 - does DM support user stories?
 - missing responsibilities?
 - missing card?
 - missing collaborators?

T3 Inspection (cont.)

- each student add comments to CRC inspection page, noting:
 - which cards/responsibilities used for story
 - any comments about card in prep of inspection meeting
- include links to user story & CRC card pages
- during meeting:
 - each student should be scribe for the cards they wrote & make the resulting changes to the CRC card
 - review comments & recommended improvements for each user story
 - note: if a card is never referenced consider deprecating it to not be included in the next design phase
